

OUTREMER

STUDIES IN THE

CRUSADES AND THE

LATIN EAST

Outremer is a book series published by Brepols (Turnhout), devoted to the history of the crusading movement in all of its aspects. It encompasses original research on:

- crusading in the Eastern Mediterranean region, the Baltic lands, Iberia, Africa and the Atlantic world
- the contributions of Western countries to crusading
- political and anti-heretical crusades within Europe
- the military religious orders
- the Latin territories and settlements in Palestine and Syria, Frankish Greece and Cyprus, Prussia, Livonia and Finland, and their relations with their Christian, Muslim and pagan neighbours
- vernacular literature of the crusades
- text editions and translations

While open to all relevant topics within these broad fields, the series will be particularly receptive to works on more specialised topics such as crusading warfare, prosopography and biography, the Baltic Crusades, and the practice and ideology of crusading in the later Middle Ages and the Early Modern period.
