

# CENTAURUS

JOURNAL OF THE EUROPEAN SOCIETY  
FOR THE HISTORY OF SCIENCE

**Centaurus. Journal of the European Society for the History of Science** is an international, English-language journal dedicated to the history of science. Founded in 1950, it became the official journal of the European Society for the History of Science (ESHS) in 2022 and is published by Brepols Publishers.

## AIMS AND SCOPE

*Centaurus* publishes high-quality, double-blind peer reviewed scholarly work on the **history of science in its broadest sense**, including the history of mathematics, medicine, biomedical sciences, earth sciences, humanities, social sciences, and technology. It welcomes contributions that address epistemological questions as well as contributions covering the social, economic, cultural, political, material and organisational dimensions of science in the past. The journal encourage submissions that connect history of science to other historical fields and disciplines.

## SUBMISSIONS

Submissions **covering all time periods**—from Antiquity to contemporary history—and **all geographical areas** are accepted. Submissions with a global, transnational, and comparative perspective are particularly encouraged.

*Centaurus* publishes a **wide variety of formats**, including research articles, historiographical articles, special issues, short papers on topics of current interest and articles open to peer review commentary. In addition, the editorial board commissions experts to write book reviews, book notices, review essays and reflections on the future of the field.

## PUBLICATION PROGRAMME 2025

The editorial board and the author community strive for a timely and regular publication rhythm. The temporary backlog is currently being cleared at an accelerated pace. Issues 66/1-2 and 66/3 are already available online (print version to follow), while issues 66/4 and 67/1 are in preparation to be published in Autumn 2025.

BREPOLS

## EDITORIAL BOARD

### Editor-in-Chief

Daniele Cozzoli (Pompeu Fabra University, Spain)

### Deputy Editor

Doubravka Olšáková (Czech Academy of Sciences, Czech Republic)

### Associate Editors

Stathis Araposthatis (National and Kapodistrian University of Athens, Greece) - Monica Azzolini (University of Bologna, Italy) - Karine Chemla (University of Edinburgh, the United Kingdom and French National Centre for Scientific Research-University Paris Cité, France) - Claire Crignon (Université de Lorraine, France) - Olival Freire Jr (Federal University of Bahia, Brazil) - Oliver Hochadel (Spanish National Research Council, CSIC Barcelona, Spain)

### Book Review Editors

Mihnea Dobre (University of Bucharest, Romania) - Barbara Hof (University of Lausanne, Switzerland) - Deirdre Moore (European University Institute, Italy)

### Editorial Advisory Board

## SUBSCRIBE TO OPEN

**Centaurus is Diamond Open Access:** its content is freely accessible without any cost to readers or authors through a partnership between the ESHS and Brepols. Rather than relying on Article Processing Charges (APCs), like most Open Access journals, *Centaurus* is first and foremost funded through subscriptions from libraries and other institutions under the **Subscribe-to-Open model**. This model offers a more equitable and sustainable alternative to the Gold Open Access model based on APCs, as it is supported by the community of history of science scholars and mobilises resources to make scholarly content broadly accessible and visible.

*Centaurus'* Diamond Open Access status is, however, not guaranteed. Only when a sufficient number of libraries and institutions continuously subscribe, can it remain Diamond Open Access. Therefore, we kindly invite you to contact your librarian, requesting them to **subscribe to *Centaurus***.
