Libraries who prefer to have the flexibility to **select individual titles** according to their specific needs, are recommended to use the eBook title lists available on our website and send them to Brepols for a price offer.

For your convenience, we have also created **thematic lists**, which gather all relevant eBooks within specific subject fields (*Classics, Theology, Art & Music, Early Modern Studies*). As a general rule, Collection discounts are higher than pick and choose discounts, the latter depending on the number of titles selected.
